

CCTV systems installation at

NALSAR UNIVERSITY OF LAW

A nation is considered to be strong, progressive and pA nation is considered to be strong, progressive and peaceful only when the legal system is vibrant and responsive to the socio-economic, political and cultural challenges. The institutions established to nurture and develop academic research and professional practice in law provides a strong foundation for the effective working of the law and order machinery. However, the safety and security of the legal institutions and practicing professionals is primary for the smooth working of legal institutions.

Brihaspathi Technologies, Hyderabad established in 2006 has been working towards making all areas and localities safe and secure. This means to install and maintain CCTV surveillance systems at local, regional, state and national level. With a portfolio of more than 6500 local and global clients across various industries & vertical markets, Brihaspathi Technologies offers end-to-end, reliable, competitively priced and state-of-art safety and surveillance systems.

Most recently, Brihaspathi Technologies tied-up with the globally renowned and prestigious National Academy of Legal Studies and Research (NALSAR). This coordinated and collaborative project meant the installation of CCTV surveillance systems at NALSAR Campus based at Shamirpet, Hyderabad. A total of 14 cameras were installed at all the strategic locations of the campus. These include 2 cameras in Library, 2 cameras in the admin building, 1 camera at the main gate outside, 1 camera at the main gate inside, and 8 cameras at the boundary walls.

Brihaspathi Technologies' CCTV surveillance project at NALSAR University of Law heralds a rare recognition in the installation and maintenance of CCTV systems at Universities across India. The CCTV surveillance project at NALSAR included 6 fixed HD IP bullet cameras, and 8 3MP PTZ HD IP cameras of high quality and latest make. With great focus on Make in India products, Brihaspathi Technologies' NALSAR University of Law surveillance systems project is enabled by 32 channel NVR with 8 TB hard disk.

Brihaspathi Technologies is a leading safety and surveillance systems supplier in Hyderabad, Telangana, Andhra Pradesh, and Assam. Some of the company's renowned clients in public and private sector include, Election Commission of India, Indian Railways, LIC, BSNL, Governments of Telangana - Andhra Pradesh - Assam, Andhra Bank, TATA Steel, Apollo Hospitals, Srisailam Devasthanam, Union Bank, Asian Paints and others.
